EXPERIENCE

Travelport Digital   May 2017 – present
Android Developer & Scrum Master   *Dublin 2*

Currently working on a team that develops and maintains the easyJet Airline iOS and Android apps. I help develop features, fix bugs, communicate with the customer and deliver to the customer on time.

I am also the teams scrum master which involves being in charge of all scum ceremonies: the sprint planning meetings, Daily Scrum/Stand ups, sprint review meetings, backlog reviews and sprint retrospectives. (see more at http://darach.eu/)

Aol   Jan 2016 – Sept 2016
Software Engineer Intern   *Kilmainham, Dublin 8*
8 Month Internship working on the front-end of the One Display Advertiser Platform

---

EDUCATION

Dublin Institute of Technology   Sept 2013 – May 2017
Bachelor of Science in Business Computing

Skerries Community College   Sept 2007 – June 2013
Leaving Certificate (400 points, June 2013)

PROJECTS

Dublin Bus – Real Time Info *(Android Application)*
Android application that provides the user with real time information for any Dublin Bus stop. Read more about it on my website at http://darach.eu/ or find it on the Google Playstore.

Real Time Travel Info *(Android Application)*
Following my success in developing the Dublin Bus app, I made one for all modes of transport in one app (Bus, Train & Luas). Read more about it at http://darach.eu/ or find it on the Google Playstore.

Gnó *(Android Application)*
My final year project that is currently in development. Basically, it's an app to request Tradesmen/Home Services. Read more about it on my website at http://darach.eu/
